Summary

Software Engineering student at Anhanguera with 3+ years of professional experience in backend development. Skilled in building scalable APIs, database modeling, and cloud-based solutions. Proficient in C#, .NET, Java, and modern database technologies like PostgreSQL and MongoDB. Passionate about agile methodologies and collaborative problem-solving. Strong focus on delivering efficient, maintainable, and scalable software solutions.

Technical Skills

- Programming Languages: C#, Java, JavaScript, C++, C
- Frameworks/Tools: .NET, Node.js, Express, Git, RabbitMQ
- Databases: PostgreSQL, Microsoft SQL Server, MongoDB, Elasticsearch
- Cloud/DevOps: Azure
- Languages: English (Professional Proficiency), Portuguese (Native)

Experience

Fitbank .NET Developer | August - March/2025*

- Developed and maintained backend systems for processing national and international payments, serving thousands of transactions daily.
- Led the development of Fitbank's International Project, enabling cross-border payment solutions and improving transaction's.
- Designed and implemented scalable APIs for payment methods.
- Collaborated with cross-functional teams to integrate systems with third-party providers, ensuring seamless data flow and compliance with financial regulations.
- Technologies: C#, .NET, SQL Server, MongoDB, Elasticsearch, RabbitMQ, Git, Azure.

Education

Anhanguera Educacional - Anhanguera

- Bachelor's Degree in Software Engineering | 2024 - Present

Federal University of Ceará - UFC

- Bachelor's Degree in Computer Science | *2019 - Paused

Certifications

- Java 17 Masterclass: Start Coding in 2024 - Tim Buchalka (Issued: 09/13/2024)

Projects

Payment Gateway Integration

- Developed a RESTful API for integrating multiple payment gateways..
- Technologies: C#, .NET, MongoDB, RabbitMQ.

Scalable Database Design

- Developed a scalable database architecture for a high-traffic application.
- Technologies: PostgreSQL, Elasticsearch.
